P29B70

Simplified operation instruction

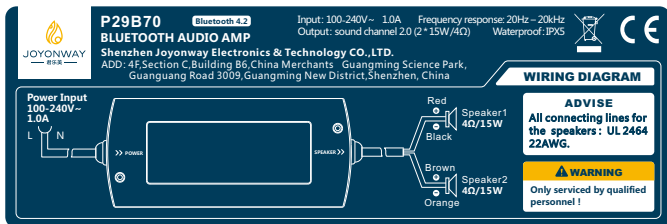

FCC Warning

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Caution: The user is cautioned that changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

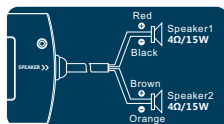

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Power voltage input: 100-240V ~ 50-60Hz 1.0A
 Power output : channel 2.0 (2*15W/4Ω)

Bluetooth version : V4.2
 Frequency : 20Hz-20Khz
 Water proof standard : IPX5

III

Matters need attention

Bluetooth pass word: 2288

The list of all paired phones will be wiped out when the Bluetooth audio amplifier is re-powered on after powered off for two minutes.

IV

Common trouble shooting

Trouble	Solution
Bluetooth signal can not be found or connection can not be made	<ol style="list-style-type: none"> 1. Please check if the Bluetooth audio amplifier is properly powered on 2. Please ensure that user's phone/ipad is within the 10 m effective communication range with the Bluetooth audio amplifier 3. Please check if the Bluetooth is already connected by another phone/ipad. If so, please disconnect the other phone/ipad first and re-search the Bluetooth signal with user's phone/ipad. If it is unable to find out whether the Bluetooth audio amplifier is occupied by another phone/ipad, please power off the Bluetooth amplifier for 2 minutes and then repower it on. Then search again with user's phone/ipad.
Bluetooth connection is made but no sound coming from the speakers	<ol style="list-style-type: none"> 1. If the user's phone/ipad is at the same time connecting to other Bluetooth amplifiers, please disconnect it from other Bluetooth amplifiers first and then try to play music on this Bluetooth. 2. Please check the music player's playing state on user's phone/ipad. 3. Please forget/ignore this Bluetooth name on user phone/ipad and then search again for its Bluetooth signal and make the connection.
Music is stuttering	<ol style="list-style-type: none"> 1. If the music is played via internet, please make sure that the internet is smooth and stable. 2. Please make sure that user's phone/ipad is within the 10m effective communication range with the Bluetooth audio amplifier. 3. Please ignore/forget this Bluetooth name on user phone/ipad and re-search the Bluetooth and make connection. 4. Please re-start user's phone/ipad.
Other	If the problems remain after above measures, please contact the distributor or manufacturer for technical assistance.
